

Just Where and How Is the Money to be Spent?

A businesslike Answer to
a businesslike Question

THIRTY denominations cooperating in the Inter-church World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCH'S WORK AT HOME. A score of items come under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward this vast work of Americanization if the church does not?

4 FOR RELIGIOUS TRAINING. At least 12,000,000 children and young people under 25 years of age are entering American life without any religious training at all. Remembering the faith of Washington and Lincoln, do you think that America will continue to produce Washingtons and Lincolns if faith dies out of the hearts of its youth?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

5 FOR THE CHURCH'S WORK ABROAD. Influences came first from the Orient thirty years ago; nearly all plagues are Oriental plagues. So long as China has only one physician to every 400,000 people the Orient will continue to be a menace. So long as one-third of the babies of India die before their second year our own babies are not safe. A Christian doctor or teacher sent abroad is working for America as truly as though he worked at home.

3 FOR HIGHER EDUCATION. Of the 450,000 American students in institutions of higher grade, one-half are in institutions founded and supported by the Churches. Many of these institutions have had no great endowment campaigns, but their needs are just as pressing as the needs of larger schools; and you have only to read their list of alumni to measure the value of their contribution to America.

6 PREACHERS' SALARIES. The preacher is called the "forgotten man," and well it may be. Eight out of ten preachers are paid less than \$20 a week!

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

of thirty denominations.

REDUCING THE DEBT

During March the Treasury Department accomplished a reduction of nearly three-quarters of a billion dollars in the National debt. During six months ending with March, the Nation's indebtedness was reduced more than a billion and a half dollars, enough to effect a saving on interest to the taxpayers of the country of approximately \$65,000,000 per annum.

This record is so splendid as to bring forth praise even from the Republican floor leader in the House, Representative Mondell, who admits that the Treasury officials have "hand-

led a trying situation most admirably," but warns that "they cannot avert a disaster unless we keep expenditures within our income." Mr. Mondell, of course, knows that no money is expended that is not appropriated by Congress, and that responsibility for wise economy rests with Congress, where the Republicans are in control.

The Republican leaders in that body have been talking about economy ever since they came into power, almost a year ago. While they have been talking economy, the Government departments have been practicing it.

Tell Him Now

If with pleasure you are viewing any work a man is doing,
If you like him or you love him, tell him now;
Do not withhold your appreciation till the parson makes oration,
And he lies with snowy lilies o'er his brow;
For no matter how you shout it, he won't really care about it,
He won't know how many teardrops you have shed;
If you think some praise is due him, now's the time to slip it to him,
For he cannot read his tombstone when he's dead.

More than fame and more than money is the comment kind and sunny,
And the hearty, warm approval of a friend;
For it gives to life a savor, makes you richer, stronger, braver—
Gives you heart, and hope, and courage to the end,
If he earns your praise, bestow it, if you like him, let him know it;
Let the word of true encouragement be said—
Do not wait till life is over and he's underneath the clover,
For he cannot read his tombstone when he's dead.

—Author Unknown.

IT HARDLY NEEDS SIFTING

So finely ground and screened is our flour. This fineness means much in the way of good baking. Try a sack and you'll find it not only easy to make better bread, cake, etc., but really cheaper because it goes so much farther.

MISSOURI WEEKLY INDUSTRIAL REVIEW

April 19, Washington.—Shop opened here to manufacture absorbent and insulating materials from corn stalks.

Kansas City.—\$40,000 motion picture theatre to be erected.

Deepwater.—Midland Oil Co. opens sales station here.

Carthage.—State and Federal aid to be furnished from \$500,000 bond issue to construct three roads covering 13 1-2 miles.

Springfield.—\$600,000 bond issue carries to erect school buildings.

Lone Jack.—Plans approved for macadamizing 3 7-10 miles Jefferson Highway to Johnson county line east of city.

Kansas City.—Proceedings filed to open and establish Pershing road for Gilham to West Pennway.

St. Louis.—Airplane mail service to be inaugurated May 15 between this city and Minneapolis, Minn.

Kansas City.—National Automotive School capitalized at \$5,000,000 makes application for charter.

Kansas City.—Contract let for erection of apartment building de luxe with six suites to rent for \$300 per month each.

If the farmers of this country do not secure common labor soon to help till the soil, we will face a food famine in not far distant future.

Independence.—School teachers to get 20 per cent salary increase.

Rover.—Iron mines near here producing ten tons daily.

Humansville is out after some small factories. It can offer cheap hydro-electric power, plenty of water and other inducements. It has a world of clay suitable for brick and tile factories, also lots of timber, and coal mines close at hand. Secretary Gillespie of the Commercial Club will give full information to interested parties.

Jefferson City.—221,662 automobile licenses issued to owners this year.

Jefferson City plans to put down 45 blocks of paving.

Kansas City.—\$750,000 vaudeville house to be erected at 12th and McGee.

Monroe City.—Midvale Oil Co. drilling for oil strike big gas pocket.

Edina.—Light plant changes ownership. New management to extend service to Knox City and other points.

Joplin.—1920 building program reaches \$3,000,000, largest in history of city.

Marshall.—17 acres in suburbs sold for \$17,000 to be platted into lots.

Jefferson City.—Taxable wealth of State \$2,908,544,432.

Kansas City.—Leavenworth firm selects this city as location to erect flour mill, daily capacity 3,000 barrels.

Kansas City.—Chamber of Commerce plans \$100,000 campaign to hard-surface all highways into city.

Pierce City.—Contract let to build two retaining walls on south end bridge across Elk river.

Jefferson City.—First National Bank increases capital to \$200,000.

Rock Port.—Main street paving completed.

Neosho.—State Highway to be built across Newton county, west via Granby, Seneca and this city, cost \$177,600.

Neosho.—Local canning factory offers \$20 per ton to tomato growers for canning crop.

Some day laboring men will come to a full understanding of the injury labor grafters are doing to honest working men as well as to employers.

Hannibal.—International Shoe Co. opens grocery and general merchandise store in plant selling to employees at cost.

Charleston.—Ten acres donated as site for new \$175,000 high school building.

St. Louis.—Public service commission cuts car fares of United Railways here from 8 to 7 cents.

Aurora.—Hereford Cattle Association erecting \$20,000 pavilion here.

Mexico.—Producers' Grain Co. of Adrian county lets contract for 25,000 bushel elevator here.

Ravenwood.—Ravenwood Ice Co. enlarging and remodeling plant.

THE HOME IS THE HEART OF THE FARM BUSINESS

The home is the place where all big business is born and if the home is

Cramps!

Says Mrs. Frank Hager, of Carbondale, Ill.: "I was suffering terrible cramps and pains each month. I had used... but it didn't give any permanent relief. The pains came back on me just the same as before. After taking Cardui, I was entirely relieved from the pains, and have never been bothered with them since."

TAKE

Cardui

The Woman's Toi

Cardui should help you as it did Mrs. Hager, as it has helped thousands of other women who suffered from the pains and discomforts from which women suffer. Many medical authorities prescribe the ingredients of which Cardui is composed for the female troubles for which it is recommended. Why not try it for your trouble?

All Druggists

KB

chaotic, poorly equipped, and worse managed, then the chance for any great business enterprise to be created in there, is very slim.

This is just as true of a farm home as any other, and the farmer who must bring to bear upon his various undertakings all the mental and physical activity of which he is capable, cannot afford to neglect the home atmosphere. If he is to attack the various problems that constantly confront him with the greatest amount of energy of which he is capable, then the home where he and his family meet to discuss these problems must be conducive to the greatest mental and physical activity on the part of all concerned and in order that the household machinery may run with the least friction and loss of strength and energy, it is necessary that the home be modern. Such improvements as water, light and heat are considered very expensive to install, but when the comfort of a home thus equipped is taken into account, crediting it not only with the greater convenience it affords, the lesser amount of work necessary for its upkeep, but also the mental rest to be attained in such a home, the initial cost dwindles into insignificance. And any up-to-date farmer who values the health, strength, comfort and convenience of the members of his household and the mental stimulus arising from the bodily comfort cannot afford to remain inactive when it comes to modernizing his home.

DON'T EXPECT TOO MUCH FROM HATCHING EGGS

The poultryman who sells hatching eggs is too often blamed for poor hatches. Aside from irregular management of the incubator, weather conditions during transit and the temperature in which eggs are kept before placing them in the machine may affect hatchability. Eggs will incubate in a temperature of 70 degrees. If they are subjected to that temperature for any length of time and subsequently brought into a cooler temperature before being placed in the incubator, dead germs are likely to result, according to G. W. Hervey, of the University of Missouri College of Agriculture.

It is wise to figure conservatively on the results to expect. About five times as many eggs should be incubated as one expects to have mature pullets in the fall. After April 1st 90 per cent fertility may be expected for Leghorn eggs and 80 per cent for the heavier breeds. A 60 per cent hatch of fertile eggs is a good one. About 10 per cent of the chicks may be lost on range. Of the remainder there should be approximately an equal number of cockerels and pullets.

1108 FARM BUREAU MEMBERS IN BUCHANAN

Township chairmen and others cooperated in a membership drive in Buchanan county which ended with a membership of 1108 for the county Farm Bureau, and a federation fund of \$896.75. Every school district in the county was canvassed, reports County Agent McDaniel, and a representative membership obtained in every section.

TO THE PUBLIC

The item published in the County Court items in The Times last week, that application had been made for admission of Miss Sue Nichols, of Farmington, to the State Sanatorium at Mt. Vernon for treatment, was entirely unknown to myself or my people, as I had no intention whatever of going to Mt. Vernon, either as a county or may patient. My condition is much improved and it is doubtful if I ever had tuberculosis at all.

It is also hoped that such meddling people will, hereafter, please attend to their own business.

MISS SUE NICHOLS.

OBITUARY

Mary Ann (Tucker) LaBrott was born in St. Francois County, in the year of 1836, and departed this life in Flat River, Mo., on February 2, 1920, at the age of 84 years and 8 months.

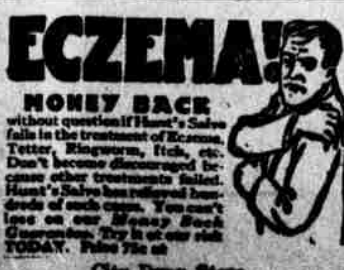

Mary Ann spent all her life in and around St. Francois county, where she won the love and esteem of all who knew her. She indeed was of a true Christian character; and always lived with that great faith and hope that will help to make our burdens lighter.

She was faithful and patient in performing her daily tasks of life, although they were many and heavy, she never gave up; was always ready and willing to do a kind deed for someone in need. Through her kind and generous nature she always gave a hearty welcome to strangers in her home, and was never known to turn a person away from her door hungry. All these little acts tend to show the beautiful Christian life that she lived. The life that makes us grow sweeter and dearer as the years go by.

Mary Ann was married in 1865 to Louis LaBrott and to this union six children were born, 4 sons and 2 daughters. Her husband and two sons having preceded her to the great beyond. She was also a devoted mother to several step-children, who tenderly loved her. Her departure was felt in the hearts of many relatives and friends by whom she was dearly loved.

The funeral services were conducted Tuesday afternoon, February 23, at the home of David LaBrott, by Rev. Longren, whose simple yet impressive words were a beautiful tribute to such a life, after which the remains were laid to rest in the Parkview Cemetery.

A GRAND-DAUGHTER.

The Gasoline Problem

THE grave problem confronting the serious-minded men in the petroleum industry today, is to keep pace in production with the seven-league strides of the demand for gasoline.

In ten years the production of crude oil in the United States has increased only 96 per cent, while during the same period the output of gasoline has increased 560 per cent.

The demand for no other commodity in general use has increased to a degree that even approximates the mark reached by gasoline.

In ten years the Standard Oil Company (Indiana) has increased its output of gasoline from 150 million gallons to more than 600 million gallons a years.

It is apparent that this could not have been accomplished except by intensive application of improved, scientific methods of refining.

As a matter of fact, the price of gasoline is held in bounds only by the sheer force of science.

Except for the ability of such institutions as the Standard Oil Company (Indiana) to make a wide range of useful products from that part of the crude oil which is not used to make gasoline, you would be paying a much higher price for gasoline than you pay today.

The Standard Oil Company (Indiana) is bending every effort to increase its output of gasoline to meet the demands and to sell it to you at as low a price as possible.

Standard Oil Company

(Indiana)

Through Your Window

If you stand before a mirror, yourself is all you see.
But looking through a window there are sky and living things,
There are sunshine and the roses and the splendor of each tree,
And happy men and women and the mocking bird that sings.

There is life strewn all about you, in the humblest plant and vine,
There's a touch of glorious beauty, if you'll only turn your eyes.
Oh, the whole world lies before you to its far horizon line,
With life's struggle ever moving, filled with interest and surprise.

If you stand before a mirror, you will only see your face,
But get you to a window and you'll see your neighbors pass;
You will look on living creatures, each one happy in his place,
And catch a broader vision than is prisoned in your glass.

Oh, your mirror makes you selfish, but your window sets you free,
It shows you greater marvels than your hands shall ever do;
It tells you that you're living here in glorious company,
And lets you catch a vision of God who fashioned you.
